Exclusive Showing

All the world is talking about the wonderful under-sea voyage of the German super-submarine merchantman, "Deutschland." Wherever the news has spread it is regarded as an achievement marking a new era of marine activity. It is placed by some on a par in importance with the mastery of the air; of the wireless, etc.

STREET STORIES

Real estate men report that desirable property is in demand at good prices and nearly every day some important transfers take place in Ardmore real estate.

G. S. Ramsey of Muskogee, one of the most prominent lawyers of the state, was in the city yesterday on business, and left last night for his home.

The county election board fitted the last of the ballot boxes that will be used in the coming primary election and all will be delivered to the election officers tomorrow.

After the election is over the park board will make an effort to raise funds to pay for free concerts in Central Park one night each week during the rest of the summer.

Dr. J. P. Neal is here from Oklahoma City visiting with Al M. Rice on North Washington street. He will spend his vacation here and will undertake to teach the art of fishing to Mr. Rice.

W. H. H. Keltner of the Leon community was in the city today on business. Mr. Keltner states that crops are looking fine in that locality and the farmers are all well advanced with their work.

Work is progressing rapidly on the new Pennington Wholesale Grocery company's building at the corner of East Main and Caddo street. Excavation for the foundation is practically finished.

The work of repairing the street paving is progressing nicely and within a short time the work will be finished. The streets worked upon present decidedly an improved appearance from what they did a few days ago.

John Mulkey has purchased an interest in the Red Motor Sales company on West Main street, and has moved his Dort agency to that place, where the two businesses will be combined.

The election to decide whether the city shall vote bonds for needed improvements, which is to take place Monday, is somewhat eclipsed by the primary on the day following. All are confident that the bonds will be voted by a large majority, however.

New houses are being erected all over the city, and as a rule all are rented to desirable tenants at a good figure before they are completed. The necessity of water and sewer main extension is obvious as the buildings have extended in many instances beyond them.

Hal M. Cannon, who for a number of years has occupied offices in what is now the Wallace building on Main street, will move to a new building to be erected on A street, northwest, in the rear of the Ardmore National bank, as soon as the building is finished.

The practice of smashing glass upon the streets of the city is causing auto owners a deal of trouble and giving tire repair men plenty of work. The police are watching for this class and if caught will be dealt with to the extent of the law. There is an ordinance against this practice, and the police propose to break it up.

Mrs. C. L. Herbert, one of the younger citizens of the city, is reported seriously ill at her residence on Second avenue, northwest. Mrs. Herbert has been a sufferer for some time, but recently her ailment took a turn for the worse, and her friends are apprehensive about her condition.

Wm. Green and J. H. Hinkle have purchased the Baird building on West Main street, and it is reported that extensive additions will be made to the structure to take in the entire lot. This was formerly used by the government as a court house, as well as Carter county after statehood, until the present court house was erected.

The payment of the Choctaw and Chickasaw per capita money goes steadily forward in this county. Not a case of intoxication has been reported, which speaks well for the efficiency of the county and city officers, who pledged themselves to see that such conditions were maintained in order that this payment might not be delayed.

John Lively of Wilson was an Ardmore business visitor today. Mr. Lively has recently been appointed a member of the city council from the fourth ward of his town to take the

Senate.

Passed army appropriation bill carrying \$314,000,000.

Passed military academy appropriation bill carrying \$2,238,000.

Took up District of Columbia appropriation bill.

Recessed at 6:25 p. m. until 10 a. m. Friday.

House.

Naval committee voted to disapprove to senate appropriation bill and to recommend sending the measure to conference.

Passed the resolution continuing through August last year's supply bills pending enactment of the new appropriation measures.

Chairman Rodden of naval committee reported naval bill recommending disagreement to all senate amendments.

Adjourned 4:33 p. m. until noon Saturday.

ANOTHER SAW CRUISER OFF THE CAPES

COMMANDER OF UNITED STATES COLLIER NEPTUNE SAYS HE SAW CRUISER LEAVING CAPES LAST TUESDAY MORNING.

Norfolk, Va., July 28.—Corroboration of the statement of officers of the Louisiana that they saw a cruiser within Virginia Capes last Tuesday, came today from Commander Shane of the United States collier Neptune, who said he could not identify the cruiser, but saw her leaving the capes about 3 o'clock.

Only a Tramp Steamer. New York, July 28.—The vessel sighted in the lower bay and thought to be the German submarine Bremen proved to be the tramp steamer Alderney from Bombay.

NEW EQUIPMENT FOR TROOPS ON BORDER

San Antonio, Tex., July 28.—By August first, all state troops in the southern department, now doing duty on the Mexican border, will be fully equipped with new paraphernalia and accoutrements if the present rate of inspecting the federalized national guard is continued. General Funston intends to replace,

It was announced from Fort Sam Houston, all inferior equipment of the state troops with new supplies from the general stores, so that the guardsmen "may go anywhere with the regulars." The quartermaster's department and ordnance department, as well, have been busy during the last week issuing equipment.

Trainloads of equipment, consisting of uniforms, guns, and tents have been moving out of San Antonio for the past three weeks. Fast inspection of the state troops at Fort Sam Houston has also been done under the supervision of Lieutenant Colonel Geo. O. Cress, inspector general of the southern department.

After passing inspection each company is reported to the war department as ready to take the field.

SPORT DOPE.

A good card has been arranged by Manager Edwards of the Ardmore athletic club for tonight, the main event will be a fifteen round affair between Vic Wright and Neal Allison. The Cantrell brothers of Wirt, will give a four round exhibition. Joe Neal and "Graveyard" two dusky huskies will mix six rounds while Roy Young and Joe Holly will go for six more rounds.

Several notables of the game from other cities will be present tonight, among them will be Jack Carley manager of Jim Flynn.

Flynn will meet the winner of Tate-Hempel bout here September 15. Tate and Hempel will meet here August 4.

BOUGHT JERSEY HERD.

F. E. Watson Purchased Forty Jersey Milch Cows From Felix J. King.

F. E. Watson who recently came here from Missouri to engage in the dairy business with his father-in-law, J. E. Harrison has purchased the Jersey dairy herd of about forty cows from Felix J. King and is moving them to the dairy south of the city. This will give the Harrison-Watson dairy a fine bunch of cows and they will be able to serve a larger number of customers. These people are planning to make some important additions to their dairy that the people will appreciate when the announcement is made.

THE HIGH STANDARD

of our pianos is proverbial among those who best understand Pianos. Not so much in their appearance, though that is in all cases satisfactory, but in the exquisite sweetness of tone in these instruments, in the expression, the perfect

action—points that speak loudly of the splendid workmanship and artistic finish. They are offered at low prices and on most liberal terms of payment.
